Re: Commendation for Pinnacle Construction

To whom it may concern:

I am a deacon at Forest Hills Bible Chapel, located in the southeast suburbs of Grand Rapids, Michigan, and was the church's coordinator for a major building expansion that we undertook in the year 2001. During the project, I worked closely with Pinnacle Construction Group, and in particular, with Mike Roskiewicz, their project leader and on-site supervisor. The project cost was about 3/4 million dollars, and involved total construction of a two-story addition with basement and second floor gymnasium, as well as refurbishing an existing building and removing part of an old foundation wall to tie the two buildings together.

We were very pleased with Pinnacle's (and Mike's) work, expertise, and effort. The job was done well and with a quality emphasis. Mike, in particular, contributed several key ideas that moved the project forward toward a speedy conclusion. I can personally vouch for Pinnacle's (and Mike's) commitment to excellence and commitment to get the job done on a timely basis and within budget. Our particular project was delayed a couple months past the promised date due to some things beyond Pinnacle's control (such as delayed issuance of a building permit, lack of blueprints for our existing building, and some difficult weather including a couple of heavy rains). However, because of good cost control and an aggressive work schedule, we actually increased the amount of work that was done, and yet it was still completed by mid-September, just as fall activities were beginning.

I invite you to come to worship God with us, and to see our building and the excellent tribute that Pinnacle built for Him.

Special thanks to Mike Roskiewicz.

Sincerely,

Daniel L. Girdwood
