RE: Letter of Appreciation for Gambro – Clyde Park Renovations

I would like to extend our collaborative thanks to Pinnacle Construction for completing another fantastic project for Gambro Healthcare. Mel Larson (Gambro Healthcare – Clyde Park Clinic Director) and Derrick Byl (Gambro Healthcare Regional Director) both expressed sincere appreciation to me for the work that Pinnacle did. The project went very smoothly especially considering the work had to be done in an existing facility while staying in operation throughout the renovation. The quality of work was exceptional while maintaining the overall costs that were budgeted for the project even though there were several design modifications and unforeseen conditions along the way.

Pinnacle Construction is extremely fortunate to have such a great staff to represent the company. I want to specifically thank Mike Roskiewicz for his contribution to the project before his retirement, Ken Patin for so effortlessly taking over the project through its completion, and Brent Bowen for coordinating all aspects of the project.

I look forward to working with Pinnacle Construction again and would highly recommend them to anyone in need an exceptional General Contractor.

Sincerely,

Jay Ross, Project Manager
Oman Gibson Associates
