

Pinnacle Construction Group
Attn: Mr. Michael Garrett-President
1000 Front Street NW
Grand Rapids, MI 49504

Dear Mr. Garrett:

It was evident from the beginning that you, Brent Bowen and Ken Watkins took great care in listening to our vision for our building project. Your very first attempt at proposing a design was right on the mark. After comparisons with several competitors, it became very clear that Pinnacle would be our partner for Micron's North American Headquarters.

Along the way it was our great pleasure to meet and work closely with your Project Leader, Mr. Larry Schmidt. We became convinced early on that Larry could be trusted and he became a valued part of the Micron building team. He continues to be held in high regard and you should be particularly proud to have him representing your company.

Last Friday we enjoyed an open house celebration for our customers and valued suppliers, of which you are one. It was an overwhelming success! The building truly represents what we set out to accomplish and we appreciate all that Pinnacle brought to the table.

Please feel free to use Micron USA, Inc. as a reference for your potential clients. If we can assist you in allowing them to tour our facility, it will be our great pleasure. Thanks again and please thank your entire company on our behalf.

With Kind Regards,

Jerry Anderson-Micron USA, Inc.
Vice President
